Technical drawing of a three-dimensional rectangular frame. The overall dimensions are 2135 (width) and 700 (height). The frame consists of four vertical legs and two horizontal crossbars. The legs have a width of 150. The crossbars have a height of 350. The distance between the inner faces of the legs is 810. The distance between the inner faces of the crossbars is 515. The thickness of the legs is 275. The thickness of the crossbars is 300.

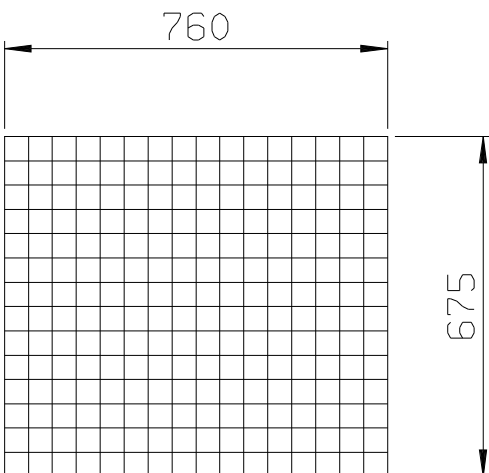

Technical drawing of a rectangular plate. The overall width is dimensioned as 2177. The plate has rounded corners with a radius of R100. There are two labels, '005', pointing to the top corners and one label '004' pointing to the bottom center edge.

Technical drawing of the backrest of a chair. The drawing shows a side view of the backrest with a curved top edge. Dimensions are indicated: a vertical dimension of 120 on the left, a horizontal dimension of 687 in the center, a vertical dimension of 178 on the left, a horizontal dimension of 150 at the bottom left, and a horizontal dimension of 601 at the bottom right. A curved line at the top left is labeled R100.
